

HOMES FOR HEROES

Thanking heroes one home at a time

Home Builders Association of Statesboro has partnered with the Downtown Statesboro Development Authority in a new project called Homes for Heroes. In support of the Blue Mile neighborhood revitalization efforts, Home Builders Association of Statesboro has built a home for a qualifying first responder. As an active and engaging organization in our community Home Builders Association is showing its support for our police officers and firefighters.

Thank you to all who made this project possible!
